8.0 UNIFORM RULES

Preamble.

The GSBA accepts that the primary purpose of conducting domestic competition is to provide opportunity for participation in the sport. However, it is important that players and teams meet certain minimum standards of dress and presentation

Against this background therefore, the GSBA strongly encourages that games proceed without unreasonable penalties being applied for incorrect uniform. Hence, while it is necessary that players wear playing tops that are uniformly coloured and numbered and distinguishable from that of the opposition, a maximum of ten (10) points per team will awarded for incorrect shorts.

As a general rule, the GSBA supports the outcome of games being determined by on-court performance

- 8.1
 - a) Players must have an acceptable basketball uniform consisting of a uniformly coloured singlet bearing a contrasting number on the front and back in the range of 1- 99 inclusive.
 - b) "OO" is not a legal number.
 - c) Taped, pencilled, texta coloured numbers or un-numbered tops do not comply with this Rule.

- 8.2

 - b) Allowances are to be made for the fading and dye ageing of shorts, as should minor piping or labelling.
- 8.3 Tracksuit pants are not permitted unless medical evidence is produced supporting the wearing of such apparel.
- 8.4 Shorts with pockets are not permitted. Pockets cannot be turned inside out or taped. Players will not be permitted to take the court for this infringement.
- 8.5 Players are permitted to wear skins under the playing shorts, providing they are skin tone or the same base colour as the playing shorts.
- 8.6 If a player chooses to wear a t-shirt/singlet under their team singlet, it must be of the same dominant colour of the singlet. If an alternative colour is chosen then every member of the team who chooses to wear a singlet/t-shirt must wear the same colour.
- 8.7 In situations where a clash of uniform colours occurs, both teams will participate in a "toss of the coin" and the loser must change, or, a team may volunteer to change and make the appropriate arrangements prior to commencement of the game. In either situation, the competition Organiser/Supervisor will provide a set of tops. These are only provided upon receipt of the subscribed fee as set by the GSBA Board. Process for Transfer and permits each season.

- Players either request a transfer after discussion with current club
 - Or we find out when they show up in PlayHQ as attempting to register with another club
 - At this point the transfer will be declined to complete the process
- As per Lissy, we touch base to find out why and reasons for the transfer request
- 99.99% of the time we approve as we all just want kids playing regardless
 - Condition is that like Lissy said, no creating super teams
 - And player/parent notified that it will be discussed at the 'All Clubs Meeting' and has to be 'approved' by all clubs
 - this may not happen if a club requires a player to help make up a team etc therefore player may end up at different club than the one requested.
 - Players wishing to transfer may end up where they are needed most
 - In my few years I have never seen this happen, all players generally get where they want to go but we make sure they know that it is after agreement from all clubs
- At the 'All Clubs meeting' we also discuss transfers where we may not be able to make up a team eg we sent 2 x U10 girls to Celtics for a season or two etc, and an U12 Div 1 girl to Marist, and got some kids from Celtics and Demons to help us make up teams.
 - The clubs don't bother with transferring funds paid etc, we get a voucher code from Longy, the receiving club creates a voucher code and the player transferring then registers again with the new club without charge
 - The reasoning is it generally all comes out in the wash and again the consensus of the clubs is to ensure we have kids playing and enjoying their basketball
- As for 'Approving transfers' - PlayHQ will automatically approve a transfer after 10 days regardless if it is sitting with the original club or at the second stage with the GSBA, so this process takes 20 days unless manually approved prior to 10 days. Once approved at GSBA level, your clubs PlayHQ will automatically approve the inbound player straight away, no waiting period on this one.
- All the clubs come to the All Clubs meeting with the list of transfers to discuss, and most of us also come with our participant list which shows the Primary School kids are coming from. Again for instance, Mooroopna Cats have a couple of kids from Kialla Primary or Guthrie St that actually live in Mooroopna, and family all play for Mooroopna sports teams etc. We raise these names and again, ensuring no super teams, they are mostly approved for these players for the same reasons above, to keep kids playing and enjoying being on the court.
 - I will raise that some clubs have asked Tigers to bring this information along a few times as they haven't had it or known if all kids are Bouchier St etc when asked.
- As for exact wording see page 7 of the current GSBA competition rules, I have attached below. Again we haven't followed this exactly eg written submission, like Lissy said it may have been a verbal discussion but in essence the rules state about keeping kids playing.

- This may change as I believe the rules are being reviewed at the next GSBA AGM, not sure much will change though.
- You may also notice that Tatura is listed as a zone for Mooroopna Cats but with Tatura now running their own successful program locally and submitting teams into the GSBA league we don't call it out but we support them in the best interests of the kids and the competition.
- The only other point to all this is for Black Eagles whereby we notify them to the best of our ability of indigenous players for them to reach out to.

NO ZONES - UNDER 12 & UNDER 14

IMPLEMEATION OF BASKETBALL AUSTRALIA 'NO ZONES' DEFENCE RULE

Definition- Zone Defence

Any defence in the half court which does not incorporate normal man-to-man defensive principles shall be considered to be a zone. For this purpose trapping defences which rotate back to man-to-man defensive principles shall be acceptable.

Violations of Man-to-man defence

The use of man-to-man defence is integral to this event. Therefore 'Official Observers' will be concerned about the determination of players or teams who are not executing acceptable man-to-man defensive principles.

Specifically, violations fall into one of the four categories listed below;

- 1- One or more player(s) was/were not in an acceptable man-to-man defensive position in relation to their man and the ball.
- 2- A cutter moved all the way through the key and was not defended using acceptable man-to-man defensive techniques - for example, bumped, switched or followed.
- 3- Following a trapping or help and recover situation the team made no attempt to re-establish man-to-man defensive positioning.
- 4- The team zone pressed and did not assume man-to-man defensive positioning once the ball had been advanced into the quarter court.

Notes which are to be used by observers – in any judgement

- Take into account the intention of the defensive team.
- Take into account the time and state of the game.
- Deliberate and pre-meditate use of the zone defence at a critical time in a game should be acted upon immediately.
- Where there is any doubt, the benefit of the doubt must be given to the defence. I.e. be sure of the violation.
- Under no circumstances will any 'Observer' re-act to a call from any player, Coach or other official to declare a zone.

General guidelines (Basketball Australia Coaches Commission)

- No stand around zones
- Only concerned about quarter court (you can trap, or whatever until the quarter court)
- No match up zones
- Helpside defence must clearly be defending a designated player not just 'parked' on the split line
- No zoning inbound plays
- Where a stand around zone alignment matches the offensive alignment the onus is on the offence to send a cutter through to expose the zone. No cutter, no zone ruling.
- On cuts and screens, the defence may follow, bump, hedge or switch but there must be some defensive action which takes account of the action of the offence.

- Teams may trap in the quarter court and may stay in a zone alignment only for one ball reversal, after which all players must re-assume man-to-man principles. (i.e. on the trap 2 players may be on the ball and 3 players assume zone positions protecting the basket or attacking the next pass, etc. As the ball is reversed players may rotate and go to the ball or shoot gaps or protect the basket. If another reversal is attempted man-to-man principles must immediately be resumed).
- Any player who has such poor defensive principles that they lose their man must not be penalized.

Penalty

- | | |
|--|--|
| 1 st violation- Technical Foul. | Personal Unsportsmanlike on the Head Coach |
| 2 nd violation- Technical Foul. | Personal Unsportsmanlike on the Head Coach and consequent disqualification |

Procedure

1. When, in the opinion of an 'Official Observer', a violation occurs i.e. a team plays zone defence, they will request the referees – through the Scoretable – to charge a Technical Foul – Personal Unsportsmanlike on the Head Coach of the offending team at the next dead ball.
Penalty – Two free throws plus possession.
2. If the same team incurs a second violation the resulting technical foul – Personal Unsportsmanlike will mean the disqualification from the game of the offending Head Coach.
Penalty – Two free throws plus possession.
3. If the same team incurs a third and further subsequent violations the same penalties will apply.
4. Continued violations throughout the competition may result in further punitive action.

The Sin-Bin

Background: During the 'Year of the Official', the Board of Basketball Victoria established a new group titled the *Technical Official's Commission*. The group comprised representatives from all major groups supporting our sport – coaches, stadium managers, tribunal members, referees, bench officials and statisticians.

The aim was to discuss the impact of technical issues (rule changes, game management etc.) on each of the areas represented, in an attempt to make all groups aware of their respective concerns.

One of the issues discussed was the behaviour of people involved in our sport and the potentially negative impact that 'bad' behaviour can have on all aspects of our game. The outcome of these discussions, and consultations with all groups involved, is the recommendation by the Board of Basketball Victoria and the Victorian Basketball Referee's Association, that Associations adopt the concept of a 'Sin Bin' to deal with inappropriate player/bench person behaviour.

What does this mean for me as a player/coach/manager ?

Game referees will be required to:

- **Instantly** penalise any obvious form of dissent, such as disputing calls, critical comments towards Referees or their calls, bad language etc. with a **Technical Foul** and send them to the 'Sin-Bin'. The Sin-Bin isn't necessarily a specified place; it just means that the player/bench person is required to leave the court for 5 minutes. Timing of the 5 minutes can be done by bench personnel (or any other means acceptable to the Association).
- A player who is sent to the Sin-Bin is allowed to be substituted.
- The coach/bench person who is sent to the Sin-Bin must move to the end of the bench area and cannot communicate with team members.
- A second **similar** offence by the same player/bench person results in them being disqualified from the game. (A 'similar' offence involves more criticism, dissent etc. resulting in a second Technical Foul)

Answers to some possible questions:

1. Is a parent subject to the same penalty if a Technical Foul is called on them because of their actions ? (e.g. when they are 'on or near' the bench.)

A: No - the match rules and Stadium Management should be used to control spectator actions

2. What if the second Tech. Foul is for a 'technical' offence - eg. leaning over the line on a pass in?

A: The 'sin bin' option shouldn't be applied.

3. What if the Tech foul occurs with one minute to go in the first half ?

A: The player/bench person sits out the last minute, then the first 4 minutes of the second half. Similar reasoning would be applied to all intervals of play between periods.

4. What if the Tech foul occurs with four minutes to go in the second half ?

A; The player/bench person is out for the remainder of the game

5. What if a player refuses to leave the court ?

A: Normal game rules apply - if a Junior, seek adult support. The player/bench person can be reported.

6. What if the team only has 5 players ?

A; Now they only have 4 !

7. What if the team only has 2 players Left and one is 'substituted' because of a 'Sin-Bin' infraction ?

A: The game is over. The opposition win by forfeit.

8. What if the team calls a time out ?

A: 5 minutes is a 'fixed time' during a playing period.

9. Do associations HAVE TO adopt this system ?

A; No - it is a recommendation from the VBRA and the Board of BV as an aid to improving participant behaviour.

10. At what levels can this process be introduced ?

A: Any/all. It's up to the association concerned. Large associations, with appropriate support, may use it at all domestic levels. Smaller associations may scale its use – e.g. only at junior or senior grades, as they deem necessary.

11. Can associations vary the penalties involved with the Sin Bin ?

A: Yes, but the issue of consistency is raised, especially where players/referees/coaches move between a number of associations.
